PROFESSIONAL SUMMARY

Motivated Computer Application Post graduate with practical experience in Java development and modern web technologies. Proficient in Core Java, Advanced Java, Spring Boot, and React.js, with a good understanding of RESTful API integration and database management using Oracle and SQL. Built an ANN-based machine learning model using TensorFlow and Keras.

TECHNICAL SKILLS

- **Programming Languages:** Core Java, Advanced Java, Spring, Spring Boot MVC and RESTful APIs, MicroServices
- **Web Development:** React.js, JavaScript, HTML5, CSS3
- **Databases:** Oracle, SQL and PL/SQL
- **Tools & Technology:** Git, GitHub, Eclipse, STS, Jira, Docker.
- **Operating Systems:** Windows, Linux

PROJECTS

➤ Artificial Neural Network to Identify Fake Profiles

Tools & Technologies: TensorFlow, keras, NumPy, Pandas, Matplotlib, Seaborn

- Developed an ANN-based machine learning model to detect fake Instagram profiles.
- Pre-processed Instagram profile data (followers, following, posts, bio, profile picture) for training.
- Achieved ~93% accuracy in classifying profiles as real or fake.
- Implemented data visualization and feature analysis to understand key indicators of fake profiles.

➤ E-Commerce Website for Pickle Vendors

Tools & Technologies: STS, MySQL, Java (Servlets, JSP), Spring Boot MVC, Postman, Figma

- Designed and developed a full-stack e-commerce platform for pickle vendors, implementing both backend (Java Servlets) and dynamic frontend (HTML, CSS, JS).
- Built core features including user authentication, product catalog, shopping cart, and order management.
- Integrated an SQL database for secure handling of user data, product inventory, and order records.
- Applied the MVC architecture to ensure scalability, maintainability, and clean separation of concerns.
- Enhanced user experience with a responsive, device-friendly UI for seamless shopping across mobiles.

EDUCATION

Hindu College Pg Courses, Guntur

2022-2024

Master Of Computer Applications in MCA, CGPA: 7.70

Sri Sai Degree College, vinukonda

2019-2022

Bachelor of Degree in B. Com (COMPUTERS), CGPA:7.30

Government Junior College, Vinukonda

2017-2019

Intermediate Certificate Examination, CGPA: 8.69

Harsha High School, Vinukonda

2016-2017

SSC Examination, CGPA: 7.8

SOFT SKILLS

- Problem-Solving and Analytical Thinking.
- Team Collaboration and Communication.
- Quick Learner and Adaptable to New Technologies.

CERTIFICATIONS

Java & Web Development Certification – Naresh IT Institute, Hyderabad (2024)

Covered various technologies like Core Java, Advanced Java, React.js, Spring Boot, SQL, PL/SQL

Mainly Focused on development, deployment & management as web technologies.

PERSONAL PROFILE

- **Languages:** English, Telugu, Hindi
- **Location:** Hyderabad, India
- **Availability:** Immediate
